

Curriculum Vitae

Aldo Bertazzoli (Ph.D.)

Personal data

Surname, Name **Bertazzoli, Aldo**
Address Distal, viale Giuseppe Fanin, 50, 40127 Bologna
Phone +39 051 2096109 Mobile +39 320 1839350
E-mail aldo.bertazzoli@unibo.it
aldo.bertazzoli@gmail.com
Place and Date of Birth Brescia, 19 luglio 1959

Education

In 1978 he enrolled at the University of Bologna, Faculty of Agriculture, degree course in Agricultural Sciences.

In 1982 he graduated in Agricultural Sciences with a grade of 110/110 cum laude, discussing a thesis on the dairy sector in Lombardy, in the subject Agricultural products Marketing, supervisor Professor Franco Alvisi.

In 1983 he obtained the qualification as Agronomist.

Between 1983 and 1986 he attended the Ph.D. in Agricultural Economics and Politics (first cycle), coordinator Professor Enzo Di Cocco, Ph.D. at the Consortium of Universities of Bologna, Turin, Milan, Padua, Pisa, Sassari.

In 1987 he obtained the title of Ph.D. in Agricultural Economics and Politics, with a thesis on International Grains Trade, supervisor professor Franco Alvisi.

Work experiences

1987 In 1987 he entered the roles of the University of Bologna, first as a technician and then as a researcher / confirmed researcher in the field G01X - Agricultural Economics and Appraisal.

He worked at the Institute of Rural Appraisal and Accounting, which then joined the Department of Agricultural Economics and Engineering.

In addition to teaching support activities for the courses of Rural Appraisal and Economics of agricultural markets, in the last 90ties, he taught Economics of International Trade of Agricultural Products.

1998 In 1998 he is among the winners of the National Contest for Associate Professors (sector G01X) and in November 1998 he became Associate Professor at the University of Parma, Faculty of Economics.

His teaching activity concerns the themes of Agricultural Policy, mainly concerning rural development. At the same time, he continues to teach International Trade of Agricultural Products at Alma Mater Studiorum - University of Bologna.

2001 Since November 2001 he is Full Professor at Alma Mater Studiorum - University of Bologna, in the scientific disciplinary field Agr/01 - Economics and Rural Appraisal. In this role, he worked first (from 2001 to 2012) at the Cesena site of the Faculty of Agriculture and then at the Bologna site of the same Faculty.

The teaching activity carried out over time has involved various disciplines, being mainly focused on business management and land policies in rural areas. In this period he also carried out his teaching activity outside the University of Bologna, at the University of Parma, as part of a degree course that was born from the collaboration between the Universities of the Region, and at the University of Gastronomic Sciences in Pollenzo.

The changes gradually occurred in the departmental structures saw him successively join the Department of Agricultural Economics and Engineering, the Department of Agricultural Sciences and, lastly, the Department of Food Science and Technology.

In the same period, he held different institutional roles. In particular:

- From 2006 to 2012 he was Head of the Food Campus, Cesena Headquarters of the Faculty of Agriculture, with organizational and administrative responsibilities;
- In the same period, he was a member of the Cesena Polo Council of the University of Bologna;
- In 2010 and 2011 he was a member of the University Commission in charge of drafting a new Statute, first on the initiative of the University itself and then following the Law 240/2010;
- In 2016 and 2017 he was Director of the Department of Agricultural Sciences, until the merger and creation of the current department.

Research activities

Research activity includes the measurement of farm efficiency and profitability, supply chain management and value creation, evaluation of agricultural policy. In order to achieve these general objectives, its research activity mainly deals with the balance sheets of enterprises and small and medium-sized enterprises (SMEs), to assess the competitiveness of the different food supply chains, estimate the added values along the food supply chains, price transmission, productivity and efficiency through indexing and statistical techniques (e.g. DEA, stochastic production frontiers) and impact of innovative policies. He coordinated nationally-funded research projects and participated in European research projects. In particular, he participated in the AIR project "Adaptation des systèmes de production horticoles méditerranéennes aux nouvelles contraintes socio- économiques" of the 5th Framework Programme of the European Union, in the FP / CHANCE project "Low-cost technologies and traditional ingredients for the production of affordable and nutritionally correct food that improve health in population groups at risk of poverty" of the 7th Framework Programme and is currently participating in the Horizon 2020 VALUMICS and FoodE projects. At the national level, it has coordinated a multi-partner research project granted by the Italian Ministry of Agriculture, aimed at investigating the economic and organizational models of organic farming. In this research, a particular focus has been dedicated to multifunctionality and social cooperative involved in organic farming. He participated in the MIA Over50 project, funded by the Ministry of Economic Development. He has been scientific responsible

for a PSR project of the Emilia-Romagna Region and invited several times to conferences organized by EIP-Agri. In 2013 he joined the panel of experts organized by the Ministry of Agriculture, Food and Forestry Policies for the drafting of the "Strategic Plan for Innovation and Research in Agriculture 2014-20". He is a specialist in the fields of agricultural management, the competitiveness of the agri-food industry, evaluation of the economic impact of agricultural policies, and labor economy. It is a promoting partner and former administrative advisor of ERGO Consulting, a spinoff of the University of Bologna, a company created to use and transfer the results of socio-economic studies and to disseminate the University's technological know-how to rural areas.
